

PREMIER SCIENCE

Glucosamine Sulfate and Chondroitin is the first product to combine our popular Glucosamine Sulfate with low molecular weight chondroitin sulfate. The result is a highly absorbable formula offering ultimate support for joints and cartilage.*

Our chondroitin sulfate has an average molecular weight less than 16,000 daltons—less than half the molecular weight of most chondroitin products. This results in improved absorption.*

Integrative Therapeutics' evidence-based natural medicines are the only choice of doctors who rely on the fact base of premier science to deliver patient results.

Contains no sugar, yeast, wheat, gluten, corn, dairy products, artificial flavoring, or preservatives. All colors used are from natural sources.

MANUFACTURED BY AN FDA-REGISTERED DRUG ESTABLISHMENT FOR
