BIRTH+

The goodness inside.

B. lactis, a probiotic similar
to those naturally found in
breastmilk, helps to support
your baby's digestive health
and developing immune
system with daily use.*

†Infants born by C-section
may have lower bifidobacteria
in their digestive system. Daily
supplementation of *B. lactis*
may contribute to increasing
the levels of beneficial
bacteria in your baby's
digestive system.*

We're awake
when you are.

If your child was born prematurely
or has immune problems, consult
your healthcare provider prior to use.

HOW TO USE GERBER® GENTLE EVERYDAY PROBIOTIC DROPS

5x

Use 5 drops once daily.
**SHAKE WELL BEFORE
EACH USE.** Some settling
may naturally occur.

UP ▲

Air vent on inner portion
of plastic cap needs to be
facing upward. Turn bottle
to a 45° angle to slowly
form a drop.

Drops can be given
on the breast, mixed with
breastmilk or formula, or
by spoon.**

** For further details see insert.

Storage: Store in a cool, dry
place. Maximum 77° F / 25° C

Keep out of reach of children
