

IMMUNE FACTORS*

Helps maintain normal levels of *Candida albicans* bacteria! It's normal to have *Candida albicans* in the body, but it's critical to keep it in balance. Symbiotics Candida Balance works through 3 different mechanisms of action. Lactoferrin robs *Candida* of iron needed for growth.* "Friendly" bacteria promote GI tract health and feed on *Candida*.* Colostrum Plus includes IgG and PRPs to promote overall immune health.*

Quality and Purity Assured. Symbiotics Colostrum is exclusively from USDA Grade A dairies. Only from first milking. Laboratory tested and verified free from pesticides, antibiotics and rBHT hormones. Each bottle is double sealed for quality and safety. If either seal is broken or missing, do not use and call 1-800-421-1830. Close tightly and store in cool, dry place (below 75°F), away from heat.
