

Support Body Detoxification Pathways and Nitric Oxide Production

L-Citrulline is an amino acid used by the body to enhance nitric oxide production and reduce ammonia levels. Ammonia is a toxic byproduct of muscle metabolism which decreases performance. Nitric oxide is responsible for dilating blood vessels which transports fresh nutrients and oxygen to working muscle while allowing waste products to be removed.

L-Citrulline Works with the Amino Acids Arginine and Ornithine

L-Citrulline works in tandem with Arginine and Ornithine to help reduce levels of ammonia. L-Citrulline also provides a readily available substrate for nitric oxide production which is used for the production of nitric oxide. L-Citrulline is an important intermediate in the urea cycle.

- **INCREASE NITRIC OXIDE PRODUCTION**
- **REDUCE LACTIC ACID AND AMMONIA BUILD UP**
- **IMPROVE MUSCLE PERFORMANCE AND RECOVERY**
- **INCREASE ADENOSINE TRIPHOSPHATE (ATP) LEVELS**
- **ENHANCE PUMP AND IMPROVE NUTRIENT DELIVERY**
- **RID THE BODY OF FATIGUE-CAUSING METABOLIC WASTE PRODUCTS**

High-Performance Liquid Chromatography (HPLC) Verified

L-CITRULLINE MALATE

Ultra Micronized **Max Bioavailability**

DETOXIFICATION & NITRIC OXIDE

- **SUPPORT MUSCULAR DETOXIFICATION**
- **BOOST NITRIC OXIDE LEVELS**

PHARMACEUTICAL GRADE

200 Grams (0.44 lbs)

DIETARY SUPPLEMENT

Supplement Facts

Serving Size: 1 Scoop (2 grams)
Servings per container: 100

	Amount Per Serving	%DV
L-Citrulline Malate 1:1	2000 mg	**

** Daily Value not established.

Other Ingredients: Silicon dioxide

Recommended Use: Take 1 serving (1 scoop) with 8-8 ounces of water or your favorite beverage twice daily on an empty stomach. Take first dose in the morning and second dose one hour prior to training. If training is in the morning, take second dose one half hour prior to lunch. To maximize results, drink at least 64 ounces of water daily while using L-Citrulline.

For maximum benefit, take up to 3 scoops (6000mg) per day. When mixing powder, shake for 15 to 20 seconds using a shaker cup or mix thoroughly with a spoon. Pure L-Citrulline Malate is hygroscopic and may clump during storage, this will not affect the quality of the product.
