

Biomuve from HOUSTON ENZYMES

ITEM NO. HN008-120

**HOUSTON
ENZYMES**

HIGHEST QUALITY SUPPORT FOR DIGESTION†

Biomuve is a blend of enzymes, probiotic bacteria, prebiotics and botanicals designed to support a healthy microbiome and regularity in the digestive tract. Biomuve includes Actazin™, an ingredient from Kiwi which is a natural source of prebiotics, fiber and enzymes. Xylanase is added to Biomuve as an enzyme that can break down hemicellulose to release nutrients from vegetables with a high fiber content. This can decrease the amount of digestive discomfort associated with vegetables, grains and legumes. Probiotics are included to replenish the gut with good bacteria.†

Biomuve was developed by Dr. Devin Houston, PhD enzyme biochemist.

SUGGESTED USE: Take 2 capsules 2 times daily. May be taken with meals or between meals.

Do not use if tamper-proof seal is broken. Keep container closed and store in the refrigerator to best preserve probiotic activity.
