

With BioPerine® for Greater Bioavailability

Curcumin (the active compound in Turmeric) provides many health benefits. However, it is poorly absorbed. This is because 1) it clears rapidly from your body and 2) your body must convert Curcumin to Tetra-Hydro-Curcumin to gain important benefits.*

High Absorption CURCUMIN uses a pre-converted form of Curcumin (C3 Reduct®) that's already in the Tetra-Hydro-Curcumin form. This powerful bio-active form of Curcumin offers greater bioavailability and 3X the potency than a regular curcumin extract.*†

SUGGESTED USE: Take 2 tablets per day with food.
