

Spirulina available in Canada to Consultants only.

Noevir Spirulina

Product Description

A blue-green algae that first appeared on the earth more than 3.5 billion years ago, Spirulina is a balanced, nutrient-rich green superfood delivering a highly bioavailable spectrum of total carotenoids, antioxidants and phytonutrients to assist natural cleansing, enhance detoxification and help promote immune health.

Key Features & Benefits

1. A dietary supplement especially beneficial for those who consume fewer than three balanced meals a day, do not get the recommended intake of fresh fruits and vegetables, are on restricted diets or are regularly subject to intense physical activity.
2. Supplies the body with a perfect balance of eight essential amino acids (protein), fiber, vitamins, minerals and other essential nutrients to help promote immune health and improve the quality of life.
3. Helps accelerate the elimination of dioxins, a highly hazardous group of common toxins from inescapable sources like agricultural pesticides, polluted air and water and our animal-based food supply. Accumulated dioxin exposure has been linked to premature aging, cancer, birth defects and lifestyle-related diseases.
4. Our all-natural Spirulina includes no binders or additives, in contrast to the majority of competing products on the market. It also contains no artificial color, sugar, yeast, milk, dairy by-products or wheat and is suitable for vegetarians.
5. Noevir Spirulina is farmed with exceptional quality control from harvest to bottling, including water-purifying and filtering systems used to remove detected heavy metal toxins during cultivation and manufacturing.

Supplement Facts		
Serving Size: 15 Tablets (3g)		
Servings per Container: 80		
	Amount per Serving	% Daily Value
Calories	10	*
Calories from Fat	0	*
Total Fat	0 g	*
