

Ginkgo-Mega Memory® is designed for better brain performance.* This product features a proprietary combination of brain-boosting nutrients.*

Ginkgo is one of the oldest living trees and its leaves are among the most extensively studied botanicals. Research has shown that Ginkgo leaf can improve blood flow to the brain, enhance information retention and act as a powerful free radical scavenger.*

This formula maximizes the power of this ancient botanical by supplying two distinct forms of Ginkgo: a traditional Ginkgo leaf powder and a standardized Ginkgo leaf extract (with the same phytochemical profile used in research studies).

Try this advanced brain support formula for 30 days and see how you feel! We are confident that you'll notice the difference.* Continue taking this product for three months or more for maximum results!*
