

Chlorella Powder

(Thin Cell Wall)

Net Wt
1 lb (454 g)

This specialized strain of raw Chlorella has a thin cell wall allowing it to be easily digested. It is aseptically grown in closed stainless steel tanks completely eliminating the possibility of contamination from outside sources including microbes, pollution, toxic substances, and heavy metals. The thin cell wall increases digestibility by 80-90%+ over that of normal chlorella.

Suggested Use:
One teaspoon twice daily.

Refrigeration Recommended
