GRAPE SEED PCO PHYTOSOME™

100 MG

*Potent antioxidant and
free-radical scavenger**

90 ULTRACAPS™

Dietary Supplement

Grape Seed PCO Phytosome™ features a complex between one molecule of a procyanidolic oligomer (PCO) derived from the grape seed and two molecules of phosphatidylcholine (the chief component of lecithin) to form what is called a Phytosome.

The PCOs extracted from grape seed offer antioxidant activity 50 times stronger than vitamin E.* It also has the ability to protect against both water and fat-soluble free radicals, offering protection to the cells against free-radical damage.*

MANUFACTURED BY AN FDA-REGISTERED DRUG ESTABLISHMENT FOR
