PROFESSIONAL USE ONLY

Not for resale on third-party websites, including, but not limited to, Amazon® and eBay®.

DIRECTIONS: Consume the contents of one packet with a meal, one to two times daily, or as directed by your healthcare professional.

Consult your healthcare professional prior to use. Individuals taking medication should discuss potential interactions with their healthcare professional. Do not use if tamper seal is damaged. The labeling on this product does not comply with California's Proposition 65. Therefore, this product may not be sold in California.

OSAplex™ is a comprehensive, convenient, and cost-effective dietary supplement that supports healthy bones, cartilage, and ligaments. Each packet provides the following: two capsules containing a combination of microcrystalline hydroxyapatite concentrate (MCHC) and vitamin D3, along with one capsule of choline-stabilized orthosilicic acid (ch-OSA®).†

Bone is composed of a calcium-based mineral complex and an organic material known as collagen. A somewhat flexible and fibrous protein, collagen appears to be a key factor in a bone's ability to withstand sudden impact. The quantity and health of collagen determines the bone's "toughness," while the mineral content determines its strength and stiffness.†

OSAplex contains choline-stabilized orthosilicic acid, a well-absorbed form of silicon that has been clinically tested. Silicon-dependent enzymes link together single chains of amino acids to synthesize collagen fibers. The surfaces of these collagen fibers act as the binding sites for the MCHC. The more surface area available to the MCHC to bind to, the more flexible the bone.†

MCHC, a proprietary, standardized, safe, bovine-sourced bone extract from New Zealand, contains a crystalline calcium and phosphorus matrix in the ideal physiological ratio of 2:1, plus bioactive growth factors and type I collagen. As a source of calcium, MCHC contributes to the production and maintenance of bone structure, a function supported by vitamin D3. Amino acids, glycosaminoglycans, and a broad range of essential trace elements are also present.†

Combining ch-OSA and MCHC with vitamin D3 results in a unique package that addresses quantity and quality of bone, and supports overall bone strength and health.†

Supplement Facts

Serving Size: 1 Packet
Servings Per Container: 60

	(2) Microcrystalline Hydroxyapatite Concentrate with vitamin D3 Capsules Amount Per Serving %DV	(1) Choline-stabilized orthosilicic acid Capsule Amount Per Serving %DV
Vitamin D3 (cholecalciferol)	50 mcg (2000 IU) 250%	
Choline (as choline-stabilized orthosilicic acid) ^{S1}		60 mg 11%
Calcium (as MCHC) ^{S2}	550 mg 42%	
Phosphorus (as MCHC) ^{S2}	198 mg 16%	
MCHC ^{S2}	2.2 g **	
Microcrystalline Hydroxyapatite (as MCHC) ^{S2}	1.32 g **	
Silicon (as choline-stabilized orthosilicic acid) ^{S1}		3 mg **

** Daily Value (DV) not established.

Other Ingredients for Microcrystalline Hydroxyapatite Concentrate with vitamin D3 capsule: Capsule (hypromellose and water), vegetable stearic acid, vegetable magnesium stearate, medium-chain triglyceride oil, and silica.

Other Ingredients for Choline-stabilized orthosilicic acid capsule: Microcrystalline cellulose, capsule (hypromellose), and purified water.
