EXCLUSIVE PROFESSIONAL FORMULAS

PROFESSIONAL USE ONLY

SAM-e

DIRECTIONS: Take one capsule daily, or as directed by your healthcare practitioner.

Consult your healthcare practitioner prior to use. Individuals taking medication should discuss potential interactions with their healthcare practitioner. Use special caution in individuals with bipolar disorder. Do not use if foil is punctured.

SAMe (S-adenosyl-L-methionine) is a molecule that is naturally formed in the body. SAMe is a methyl donor in a process essential to normal cell health and function known as methylation. The methylation process can decline with age or as a result of chronic alcohol consumption, and it can be limited by genetic defects.*

SAMe contributes to the synthesis, activation, and metabolism of neurotransmitters, proteins, nucleic acids, phospholipids, hormones, and some drugs. It supports glutathione production, liver health, joint comfort, and a healthy mood.*

Gnosis' Adomix® contains a minimum of 70% of the SS isomer of SAMe, the form the body can use most readily. This relatively high concentration makes SAM-e cost-effective. Each capsule is sealed in a nitrogen-purged blister pack to maximize protection from the environment.*
