

No other adaptogen is more celebrated for the heart, in Ayurveda, than Arjuna, which translates to bright and shining one. It is described as being unparalleled among other herbs.

Ayurveda teaches the heart is the center of all processes both physiological and emotional, making it central to health.

Today, Arjuna is celebrated for its ability to promote cardiac function, oxygenation of the heart and maintain cholesterol levels already within normal range.*

Featured herb on front: Arjuna (bark)

CLINICAL STRENGTH EXTRACT

Each Himalaya Organic Arjuna caplet is equivalent to **8,000 mg** of Organic Arjuna powder per serving.

HAPPINESS THROUGH WELLNESS

Crafting traditional medicines based on Ayurveda, a 5,000 year old science that believes the journey back to wholeness begins with nurturing the capacity for joy.

Trusting the gifts of nature and the irreplaceable relationship between the plant and its native soil for consistent healing properties.

Contributing to the wellness of the earth by teaching our family of farmers to grow native plants sustainably on their land and reduce the demand on the local environment.

Building communities by advocating women in farming, protecting fair prices, providing maternal health, sponsoring clinical services and offering school wellness programs.

Believing that if wellness is the path to happiness, we must contribute to the wellness of all things. Wellness of people, wellness of the environment, wellness of our communities.
