The Jigsaw Adrenal Cocktail™ + Wholefood Vitamin C combines 400mg of wholefood Vitamin C, Potassium Bicarbonate and Redmond's Real Salt® in a unique formulation designed to support healthy adrenal gland function. Vitamin C plays a critical role in adrenal function, including their ability to produce numerous hormones. In fact, the highest concentration of Vitamin C in your body is stored by your adrenal glands. Additionally, sodium and potassium play a delicate dance in your adrenals and are both vital minerals for normal adrenal function.*
