Plain drinking water (even bottled "mineral water") does not deliver the necessary quantity or balance of the essential minerals and electrolytes that your body requires for optimal hydration. Jigsaw Electrolyte Supreme™ provides a balanced combination of key electrolytes and minerals such as calcium, magnesium, zinc, selenium, sodium and potassium as well as important B complex vitamins in their active, bioavailable form to enhance energy production.*

"I love Jigsaw's Electrolyte Packets. I teach Pickleball in AZ. I'm outside all day long. These packets keep me hydrated and I drink more water because of the great taste! My favorite flavor is the lemon lime but I was surprised I liked the berry too." — Michelle

"I tried this product because I was having severe leg cramps and everything else I tried didn't work at all. I used this product for 2 days and they were gone, completely!" — Darlieh
