DIETARY SUPPLEMENT | 60 SERVINGS | NET WT 13.8 OZ (390 G)

It's fun to feel good.

Jigsaw MagSoothe™ is a fast-acting, calming magnesium powder that utilizes the highly bioavailable Magnesium Lysinate Glycinate Chelate exclusively from Albion Labs, plus co-factors.*

The Jigsaw MagSoothe™ was designed to be complementary to our top-selling, clinically tested MagSRT™. We recommend MagSRT™ in the morning for the energizing benefits of magnesium malate, and MagSoothe™ in the evening for the calming properties of magnesium glycinate.*

"TASTES GOOD! So many powders can taste odd or bad. I find the taste of this product very nice. I use it regularly for myself and clients." — Karen

"I have been using it for a while. It helps relax me at night and it reduces the incidence of muscle cramps in my groin and feet. I can notice if I haven't taken the product. It's very effective and it's also helpful getting right into my system since I am a post bariatric patient and need vitamins and minerals to be absorbed quickly before they run right out of me. Great Product!" — James

Jigsaw's Quality Promise

Every batch of product is tested by a 3rd party lab to ensure purity and potency, and the results are posted online for all to see. We believe that what's on the label is what should be in the packets, and nothing else.

The Jigsaw Guarantee

Jigsaw Health is committed to providing you with highly effective, premium-quality supplements. However, if you are not completely satisfied with a purchase, we offer a 90-day, hassle-free, FULL money-back guarantee... that includes the cost of shipping.
