It's fun to feel good.

Jigsaw Adrenal Cocktail™ combines 400mg of Wholefood Vitamin C, Potassium Bicarbonate, and Redmond's Real Salt™ in a unique formulation designed to support healthy adrenal gland function.*

Vitamin C plays a critical role in adrenal function, including their ability to produce numerous hormones. In fact, the highest concentration of Vitamin C in your body is stored by your adrenal glands. Additionally, sodium and potassium do a delicate dance in your adrenals and are both vital minerals for normal adrenal function.*

Finally, stressed adrenals deplete your body's supply of magnesium. So complementing Jigsaw Magnesium supplements with Jigsaw Adrenal Cocktail™ will help your body use magnesium more effectively.*

Since chiropractic school I've suffered with burnt out adrenals. Using this product makes me feel better! I have more energy, a clear mind, and wake up easier in the morning without feeling groggy. Now that I've personally experienced the benefits of Jigsaw's Adrenal Cocktail I recommend it to all my patients. — Ashley R.

Yes, we know this doesn't taste good. These ingredients have a naturally bitter taste to them. We actually do know how to make powders taste delightful. But this product was designed WITHOUT any flavoring ingredients specifically for customers with sensitivities. Therefore, we recommend that you dilute the powder in 16oz (or more) of water, or mask it using OJ. Or simply hold your nose and swig it back like a shot of bad tequila. At least this "cocktail" will be good for you.
