MAGNESIUM SUPPLEMENT | 60 SERVINGS | NEW WT 330 G

It's fun to feel good.

Jigsaw MagSootheTM is a fast-acting, calming magnesium powder that utilizes the highly bioavailable Magnesium Lysinate Glycinate Chelate exclusively from Albion Labs, plus co-factors.*

The Jigsaw MagSootheTM was designed to be complementary to our top-selling, clinically tested MagSRT[®]. We recommend MagSRT[®] in the morning for the energizing benefits of magnesium malate, and MagSootheTM in the evening for the calming properties of magnesium glycinate.*

"TASTES GOOD! So many powders can taste odd or bad. I find the taste of this product very nice. I use it regularly for myself and clients." — Karen

"I have been using it for a while. It helps relax me at night and it reduces the incidence of muscle cramps in my groin and feet. I can notice if I haven't taken the product. It's very effective and it's also helpful getting right into my system since I am a post bariatric patient and need vitamins and minerals to be absorbed quickly before they run right out of me. Great Product!" — James

Jigsaw's Quality Promise

We promise that what's on the label is what's in the bottle, and nothing else. That's why we test every batch at an Independent 3rd Party Lab for potency and purity. We post the results online for all to see.

The Jigsaw Guarantee

Jigsaw Health is committed to providing you with highly effective, premium-quality supplements. However, if you are not completely satisfied with a purchase, we offer a 90-day, hassle-free, FULL money-back guarantee... that includes the cost of shipping.
