Easier to swallow tablets²

We know that taking big pills every day can be a challenge. That's why we have developed easier to swallow, smaller tablets than other leading joint care brands.² Our exclusive state-of-the-art technology allows us to pack the same amount of our powerful ingredients into a smaller tablet, making it easier to take every day for the best possible results.

Move Free[®] is proud to support the Arthritis Foundation's efforts to conquer arthritis. For information, call 800-283-7800 or visit arthritis.org

HOW DOES MOVE FREE[®] WORK?

Move Free[®] Advanced supports 5 signs of joint health: mobility, flexibility, strength, lubrication, and comfort so you can do the things you love.*

Glucosamine:

Glucosamine is key for the formation of cartilage, an essential building block of your joints. Glucosamine also supports the **mobility** and **flexibility** you want in everyday life.*

Chondroitin:

Chondroitin is a building block of cartilage that supports joint **strength** by helping to resist compression in the joint. In the body, Chondroitin functions by attracting fluid to joints to support cushioning and **lubrication**.*

Uniflex[®] (FruiteX-B Calcium Fructoborate):

Uniflex[®] is a clinically tested mineral complex that supports joint **comfort** in as little as 2 weeks.*¹

Hyaluronic Acid (HA):

Hyaluronic Acid is the same molecule found in healthy joint fluid. HA has been reported to support joint **lubrication** and smooth movement. As we get older, levels of HA tend to decrease.*

Methylsulfonylmethane (MSM):

MSM is a source of sulfur found in the body that is important in the formation of collagen in joints. Collagen is a vital part of your joints because it supports the structure of cartilage.*

*THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE OR PREVENT ANY DISEASE.
