Store in a cool, dry place with lid tightly closed.

Gelatin is derived from bovine sources.

Move Free® For what moves you.

We believe in delivering clinically proven benefits to keep people connected to what they love most.

Move Free® Ultra Omega Joint Plus uses a proprietary blend:

Clinically proven to deliver
3x better joint comfort vs.
Glucosamine + Chondroitin.**

Plus provides whole-body
antioxidant support with
Astaxanthin.*

Plus provides
omega-3 support.*

About our ingredients:

What are Krill? Krill are tiny crustaceans that thrive in Antarctic waters. Unlike fish oil, oil from krill carries Omega-3s in phospholipid form, which helps absorption.* The krill used in this product are 100% pure and harvested at levels below international catch guidelines.

What is Astaxanthin? A powerful antioxidant that is naturally derived from freshwater microalgae. Astaxanthin has anti-inflammatory properties and helps protect body tissues from harmful free radicals.*

What is Hyaluronic Acid (HA)? The same molecule found in healthy joint fluid, HA has been reported to support lubrication and smooth movement. As we get older, levels of HA tend to decrease.*
