MegaRed® Superior Omega-3 Krill Oil

WHAT IS KRILL?

Krill are tiny crustaceans that thrive in the frigid waters of the Antarctic. Differently from fish oil, oil from krill carries its Omega-3 in a phospholipid form which helps absorption in the human body. The krill used in this product is 100% pure and harvested below conservative international catch guidelines.

ABSORPTION

MegaRed Superior Omega-3 Krill Oil is different. Its Omega-3s are carried in phospholipid form, the same as your body's cell membranes. This allows **MegaRed** to be easily recognized and utilized, allowing for easy absorption. Just one **MegaRed** softgel* provides a combination of omega-3 fatty acids and the powerful antioxidant astaxanthin to support your health.*

NO FISHY AFTERTASTE

MegaRed easily mixes in the stomach so it doesn't leave an unpleasant aftertaste that you can experience with fish oil.

More Omega-3s in one softgel*

One 1000 mg
Krill Oil Softgel

Two 500 mg
Krill Oil Softgels

*Total Omega-3 Fatty Acids of 230 mg

ACTUAL BOTTLE SIZE

Eco-Friendly. Krill is one of earth's most abundant and sustainable organisms. The harvest of krill is well below conservative international catch guidelines. **MegaRed®** goes a step further by only sourcing krill from the Antarctic where krill is most abundant. This helps the ecosystem maintain a healthy, sustainable krill population.

This product comes from a fishery that has been independently certified to the MSC's standard for a well-managed and sustainable fishery. www.msc.org

Schiff® SURE DISSOLVE softgels are formulated to disintegrate within one hour.
