

N-Acetyl Cysteine (NAC) is a stable form of the non-essential amino acid L-Cysteine. It is a sulfur-containing amino acid that acts as a stabilizer for the formation of protein structures, and is also necessary for the formation of Glutathione which exerts a variety of protective effects, including detoxification and intracellular defense against oxidative stress.* Certain research publications indicate that NAC may help support the following:

- Supports healthy lung function*
- Supports cellular health*
- Supports Glutathione Synthesis*

CAUTION: If you are pregnant, nursing, taking any medication or have a medical condition, please consult your healthcare practitioner before taking any dietary supplement.

Keep out of the reach of children.

Do not use if safety seal is broken or missing.

Keep in cool, dry place.
