The Superior Solution for Better Absorption

MORE OMEGA-3s

Increasing the intake of Omega-3s from fish oil doesn't guarantee the body will absorb the extra quantity of Omega-3s. **MegaRed® Advanced 6X Better Absorption** uses a breakthrough micro-droplet technology that is clinically proven to help the body absorb 6 times more Omega-3s than regular fish oil. The formula is pre-emulsified, which means the body can start to absorb a higher quantity of nutrients right away.
