

**Recommended Dose: Infants and Toddlers (0 to 36 months old):** Take 1 scoop daily or as recommended by your health professional. Preparation instructions for adults:  
1. Wash your hands thoroughly. 2. Measure 30 mL (2 tablespoons) of water and pour into sterilized bottle. 3. Using the enclosed scoop, add one level scoop of powder to water or breast-milk. Shake well until powder is dissolved. 4. Feed to infant immediately. After feeding, any solution not consumed within 1 hour should be discarded.

**For warnings and additional information, see outer box. Keep out of the reach of children.** Use only if safety seal is intact. Store under refrigeration (below 46°F).
