Solgar® Whey To Go®

Protein Powder is a highly efficient, advanced protein enhancement product.* It is formulated with a blend of uniquely processed whey protein isolate and whey protein concentrate. Cross-flow micro-filtration adds to Whey To Go® Protein Powder's amino acid availability, absorption and utilization.*

Solgar® Whey To Go®

Protein Powder also includes the two beneficial ingredients, Free-Form L-Glutamine and Free-Form Branched Chain Amino Acids (BCAA's), plus the naturally occurring amounts from whey. L-Glutamine plays a significant role in supporting protein metabolism.* BCAA's are directly involved in protein synthesis and help support muscle nitrogen and a free amino acid pool during exercise.* Both L-Glutamine and BCAA's are used by muscle tissue as a source of energy.*

In addition, **Solgar® Whey To Go®** Protein Powder is gluten free and low in fat. Plus, its deliciously rich strawberry flavor blends easily and tastes great. The product can also be mixed in water or your preferred source of lactose-free food such as sauces, muffins, pancakes and other bake mixes. It is an excellent way to add high quality whey protein to your daily caloric intake.
