

**Body Ecology® EcoOxyZyme™** is a proprietary complex of ozone, peroxide and other oxidants, combined with enzymes, designed to disrupt biofilms.\*

**Recommended usage:** Take one (1) capsule two times a day with meals, or more if needed to achieve desired results.

Biofilms occur when microbes attach to a surface and form a barrier to protect the community inside. Biofilm removal is the first step to addressing gut dysbiosis. One would then focus on repairing the gut lining and creating a healthy inner ecosystem.

Store in a cool, dry place.  
Keep out of reach of children.
