

Why Organic Whole-Food Complexes?

Our bodies understand – and seek – organic nourishment, for organic whole foods deliver the ideal form of essential micronutrients that allow us to thrive. Our Earth understands – and celebrates – organic cultivation, which reduces the burden of the toxic “ides” – pesticides, fungicides, and herbicides. And our organic whole-food complexed vitamins understand and speak your language – the language of life itself.

New Chapter will donate a portion of the net proceeds from this product to **The Organic Center**, whose mission is to generate credible information and communicate the universal benefits of organic farming and products. Luna Nueva – *New Chapter's Organic Farm*

Enjoying the ecosystem of the pristine Children's Eternal Rainforest in Costa Rica, *New Chapter's* organic spice estate serves as a model for the organic cultivation of ginger and turmeric and radiates a purity that reflects our commitment to environmental preservation and nutrient-enhancing growing practices.

♦ **Probiotic Nutrients™**, exclusively from *New Chapter*, are created by the two-stage culturing activity of organic *Saccharomyces cerevisiae* and three species of *Lactobacillus*: *acidophilus*, *bifidus*, and *rhamnosus*. These beneficial probiotics culture the listed vitamins, minerals, organic milled soy, and food concentrates, creating 100% whole-food complexed nutrients that are remarkably easy to digest and utilize, while simultaneously offering naturally occurring phytonutrients such as soy isoflavones, beta glucans, bioflavonoids, glutathione, lipolic acid, and enzymes.
