

SUGGESTED USE: ADULTS AND CHILDREN OVER 12:
Shake well before using. Take 1 tablespoonful mixed with 4 to 8 ounces of liquid once or twice a day. Drink additional fluid during the day. Bentonite can be taken on an empty stomach or with food. To help settle the stomach, bentonite can be taken after a meal.*

Store at room temperature or in the refrigerator. Keep lid tightly closed to protect contents.

Note: Bentonite passes through the body mostly undigested.

Great Plains Bentonite for Alimentary Detoxification – Works like a magnet to grab and bind unwanted substances by adsorbent action.*

Great Plains Bentonite for Maximum Activity - The total surface area to grab unwanted substances in one tablespoon serving is over 8,100 square feet, more than the floor surface area of four average size 2,000 square foot homes.

Great Plains Bentonite is a unique naturally occurring mineral source dietary supplement with the proper composition for maximum ability to remove unwanted substances. Bentonite's mechanism of action is physical, due to its colloidal structure and charged particles.*

Try our Bentonite + Herbal Detox capsules – with Great Plains Bentonite, Chlorella, Broccoli Sprout Powder, DIM and more. Provides Powerful Daily Detoxification and Supports Hormonal Balance.
