We prepare our Marshmallow Extract from fresh (undried) roots of *Althaea officinalis* plants which are **Certified Organically Grown** on our own farm without the use of chemical fertilizers, pesticides or herbicides.

To assure optimal extraction of Marshmallow's bioactive compounds, the roots are hand-dug in late autumn or early spring and are then taken directly to our laboratory and promptly extracted while still fresh and succulent.

Our Marshmallow is never fumigated or irradiated. Fresh herb / menstruum ratio: 1 : 2.5

Contains distilled water,
certified organic grain alcohol (23-33%),
& Marshmallow extractives.
