

Bacopa Monnieri is an herb that acts as an adaptogen. It may support cognition and healthy stress levels. It may also promote memory formation by supporting neuron communication and growth of nerve endings.*

Suggested Use: As a supplement take one or two capsules per day. It is recommended to take with food as upset stomach may occur when taken on an empty stomach. Improvements generally occur after 6-8 weeks of consistent use though anti-anxiety effects may be more acute.

Storage: Store in a cool, dark place. Do not freeze or expose to moisture or heat above room temperature.

WARNING: Consult your physician before use if you are taking any medications, are pregnant, nursing, or under 18 years of age. Do not consume more than 4 capsules per day.

Discontinue use and consult your doctor immediately if any adverse reactions occur. Do not take Bacopa and operate any heavy machinery until you know how it affects you. Keep out of reach of children.
