

Citicoline (CDP Choline) is an intermediate molecule in the process of generation of phosphatidylcholine from choline. When taken as a supplement, studies show that citicoline can improve dopamine receptor densities as well as improving focus, mental energy, and memory. Citicoline use has also been shown to be neuroprotective.*

Suggested Use: To improve focus and mental energy, take 1-2 capsules in the morning. Repeat dosage again in the afternoon if necessary.

Storage: Store in a cool, dark place. Do not freeze or expose to moisture or heat above room temperature.
