

Centrophenoxine is a dietary supplement taken to support overall cognition and memory. Centrophenoxine may support brain health and cellular function. It may help support neuron aging by promoting neuron maintenance and removing waste build-up.*

Suggested Use: To promote overall cognition and support brain health, take 1 (one) 300mg capsule two or three times per day. Do NOT take Centrophenoxine sublingually as this can lead to increased side effects.

Storage: Store in a cool, dark place. Do not freeze, expose to moisture or heat above room temperature.
