

0 90700 00092 3

We prepare our Milk Thistle Extract from the pericarp (seed coat) of *Silybum marianum* plants which are Custom Wildcrafted™ in their natural wild habitat.

We use a triple percolation process which creates, without heat, a more concentrated extract which contains the broad-spectrum of Milk Thistle's silymarin flavonoids (silybin, silydianin and silychristin).
