

Fisetin is a naturally occurring flavanol that acts as an antioxidant and is found in low quantities in many common fruits and vegetables. It helps maintain glutathione levels and mitochondrial function in the presence of oxidative stress. It helps support memory and cognitive function by protecting existing neurons and promoting the growth of new nerve cells. Double Wood Fisetin is an extract from the smoke tree (*cotinus coggygia*).*

Suggested Use: As a supplement, take 1 capsule per day on an empty stomach. Do not exceed 3 capsules in one day.

Storage: Store in a cool, dark place. Do not freeze or expose to moisture or heat above room temperature.

WARNING: Consult your physician before use. Do not use Fisetin if you are pregnant, nursing, or are under 18 years of age.

Discontinue use and consult your doctor immediately if any adverse reactions occur. Do not use Fisetin and operate heavy machinery until you know how it affects you. Keep out of reach of children. Do not exceed 3 capsules per day.

FISETIN

100 mg
per capsule

- * Supports Memory and Cognitive Function
- * Potent Antioxidant and Bioflavonoid
