

Magnesium Taurate is a chelate of magnesium with the amino acid taurine, and it contains 8-10% elemental magnesium by mass. Taurine synergizes with magnesium and helps transport magnesium ions into and out of cells through their cell membranes. Magnesium Taurate is a popular magnesium supplement often used for its beneficial effects on cardiovascular health.*

Suggested Use: As a supplement, take 3 capsules per day. Magnesium Taurate is often used in the evening due to its calming and insomnia reducing effects. Do not exceed 8 capsules per day.

Storage: Store in a cool, dark place. Do not freeze or expose to moisture or heat above room temperature.
