

PREMIER SCIENCE

MSM is a bioavailable form of sulfur, which is necessary for the proper function of the body's skin, hair and nails, connective tissue, amino acid production, and immune system.* Sulfur must be consumed each day for healthy function and growth of the body.*

Glucosamine sulfate is up to 98% absorbable, which makes it more readily available to the body to support healthy joint cartilage.* Clinical studies show it's a key building block for connective tissue and cartilage.*

ITI® evidence-based natural medicines are the only choice of doctors who rely on the fact base of premier science to deliver patient results.
