

Pterostilbene is a methylated stilbene molecule that is structurally similar to resveratrol. The primary difference is that Pterostilbene is better absorbed orally and may be a more potent antioxidant molecule. Research shows it may support optimal cognitive function, cardiovascular function, and optimal glucose/cholesterol levels.\*

**Suggested Use:** Take 100mg once or twice per day to support cognitive and cardiovascular health. Take 200mg-400mg per day to support in the reduction of glucose and cholesterol.\*

**Storage:** Store in a cool, dark place. Do not freeze or expose to moisture or heat above room temperature.

**Manufactured for:**  
Double Wood LLC
