Whey is popular with bodybuilders, people on high protein diets, and anyone looking for a quick, easy-to-use nutritional drink. Our Whey Isolate Powder is specifically designed for anyone looking for high quality nutrition to support their workout and fitness goals.

Whey is a by-product of milk and is loaded with protein that has naturally occurring BCAAs to support strength-levels, which plays a role in optimal nutrition.\* These nutrients are important components of muscle tissue.\*

Whey Isolate is designed for those looking for an advanced nutritional drink with reduced amounts of fat and lactose. For an extra treat, blend with fruit or your favorite non-fat frozen yogurt.

\*Use in conjunction with an intense daily exercise program and a balanced diet including an adequate caloric intake.
