Part No. 22-30020

Body Ready Makes the Difference

One of the challenges with curcumin...there's a limit to how much your body can absorb and actually use. If absorption goes up, greater levels of active curcumin can work across multiple pathways to support antioxidant health.* Oxidative stress from excess free radicals has been associated with cognitive decline. Finally, Solgar® takes bioavailability and absorption to a whole new level.*

Unlike regular turmeric powder, Solgar® starts with a 95% curcumin extract...the standardized active form, purified and concentrated from native turmeric root (*Curcuma longa*).

For the first time, Solgar® surrounds and encapsulates standardized curcumin extract with microscopic, "water-loving" spheres called micelles. Micelles make the difference in absorption and are so microscopically small that they allow curcumin to be readily passed into the bloodstream. At this size, micelles are virtually invisible and have the ability to transform a dense and opaque powder into a crystal clear, body-ready liquid. The clearer the liquid...the greater the absorption. The greater the absorption...the greater the bioavailability. And, the greater the bioavailability...the greater the power of curcumin.*

Faster absorbed, better absorbed, and longer lasting than ever before¹ - Full Spectrum Curcumin Brain Works. More...Better...Faster...²

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

(These statements are based on a human study of NovaSol® curcumin in comparison with native curcumin extract, using an objective measure (metabolite analysis).)

†Traditional use claims are based on historical or traditional practices. Bacopa has been used in Ayurveda for centuries to support memory and focus.

SOLGAR®

FULL SPECTRUM Curcumin

Brain Works

Long Lasting Support*

NON-GMO * GLUTEN, WHEAT & DAIRY FREE
SUITABLE FOR VEGANS

90 LICAPS™

DIETARY SUPPLEMENT

FULL SPECTRUM Curcumin

More, better, faster...that's the difference of Solgar® Full Spectrum Curcumin Brain Works. With Full Spectrum Curcumin, Solgar® transformed poorly absorbed curcumin from a fat-soluble to a water-soluble phytonutrient...making it immediately body-ready, faster absorbed and more active than ever before.¹

Now, Solgar® Full Spectrum Brain Works combines the power of Full Spectrum Curcumin with Bacopa (BacoMind®), Choline and Vitamin B12 to better support cognitive health and function.* Solgar® brings together the power of traditional herbs and contemporary science in a uniquely different delivery by combining...*

- Curcumin functions as an antioxidant to help fight free radicals.* Oxidative stress from excess free radicals has been associated with cognitive decline.
- Bacopa helps with short-term memory and is traditionally used in eastern Ayurvedic practices for memory and focus, especially mild memory and focus problems associated with aging.*
- Choline an essential component of brain cell membranes and a precursor to brain cell neurotransmitter acetylcholine.*
- Body-ready B12 to help support healthy homocysteine metabolism.* Some research indicates a correlation of low homocysteine levels and positive cognitive health.*

Experience how simple staying sharp can be. Solgar® Full Spectrum Curcumin Brain Works...three Liquid Extract Capsules, once a day...that's what great memories are made of.*
