

EVIDENCE-BASED

For the body to absorb and utilize nutrients, a healthy digestive system must properly break down proteins, carbohydrates, and fats.* All organs and glands involved in the digestive process must secrete adequate levels of enzymes or hormones to ensure healthy digestion. Pro-Gest™, a food enzyme supplement, provides a high-potency blend of enzymes, pancreatic tissue, ox bile extract, and niacinamide.*

If pregnant, nursing, or taking prescription drugs, consult your healthcare practitioner prior to use.

Contains no sugar, salt, yeast, wheat, gluten, corn, soy, dairy products, artificial coloring, artificial flavoring, or preservatives. This product contains natural ingredients; color variations are normal.
