

Pros-Forte™ is a clinically proven combination of Saw Palmetto WS® 1473 and Nettle WS® 1031. The actions of these two extracts have been well documented in published research. Unlike other prostate support formulas, the safety and efficacy of Pros-Forte has been demonstrated in long-term, placebo-controlled, double-blind clinical trials. The studies show Pros-Forte has a positive impact on urinary flow and an ability to inhibit both 5 α -reductase and aromatase enzymes.*

Integrative Therapeutics' evidence-based natural medicines are the only choice of doctors who rely on the fact base of premier science to deliver patient results.
