

Recancostat® is a patented combination of stabilized reduced glutathione (GSH), anthocyanins, and L-cysteine, clinically studied to support cell apoptosis and healthy cell development.* GSH blocks free-radical damage to all types of tissues and provides daily support for the body's normal process of DNA repair.*

Recommendations: Take 1 or 2 UltraCaps™ with 12 ounces of water 3 times daily between meals, or as directed by your healthcare practitioner.

If pregnant, nursing, or taking prescription drugs, consult your healthcare practitioner prior to use.

For Sale in North America only. U.S. Patent 5,925,620
