

Recancostat® is a patented combination of stabilized reduced glutathione (GSH), anthocyanins, and L-cysteine, clinically studied to support cell apoptosis and healthy cell development.* GSH blocks free-radical damage to all types of tissues and supports the body's normal process of DNA repair.*

Recommendations: Take 1 capsule with 12 to 16 ounces of water one to three times daily between meals, or as recommended by your healthcare practitioner.

If pregnant, nursing, or taking prescription drugs, consult your healthcare practitioner prior to use.

For Sale in North America only. U.S. Patent 5,925,620
