

DHA (docosahexaenoic acid), an omega-3 fatty acid, is a major structural fatty acid in the brain & eyes and is a key component of the heart.

Unlike other sources of DHA omega-3, **life'sDHA™** comes from a vegetarian source (algae), not from fish, so there is no worry of ocean-borne contaminants.

DIRECTIONS: Take one (1) softgel daily with a meal.

Store in a cool, dry place away from direct sunlight.

Keep out of reach of children. Not intended for children under 4 years of age due to risk of choking.

Caution: Do not take if seal is broken.

As with any dietary supplement, consult a healthcare professional before use, particularly if your child is taking medications such as anticoagulants or blood thinners, has a bleeding disorder or is anticipating surgery.
