

The **Perfect Cleanse® Purify** formula is the first step of **Perfect Cleanse®**, supporting normal liver detoxification.[†] The liver produces 1-2 quarts of bile daily, which carries toxins, metals, microbes, and other metabolic by-products that must be eliminated through the gastrointestinal tract.

Purify is formulated with natural botanicals to support normal detoxification, plus cracked-wall chlorella, widely studied for its ability to bind with environmental toxins, and liver antioxidants that participate in production of detoxification enzymes.[†]
