vitamin D₂
1000 IU
per drop**A factor in
the maintenance
of good health

Food/Dietary supplement

**180
drops**

5 mL (0.17 fl.oz)

Vitamin D is made in the skin when exposed to summer sunshine (UVB) and is present in only a few foods.*

Vitamin D is necessary for healthy bones and muscle function.*

Vitamin D can be measured with a blood test for 25-Hydroxyvitamin D. The Institute of Medicine (IOM) recommends this level should be higher than 20 ng/mL. A vitamin D supplement may be required to raise 25-Hydroxyvitamin D to healthy levels.*
