

EVIDENCE-BASED

Rhizinate® 3X extra-strength deglycyrrhizinated licorice stimulates and accelerates the natural protective factors in the digestive tract which help relieve occasional stomach discomfort immediately.* In Rhizinate 3X, the glycyrrhizin compound—associated with high blood pressure—has been removed.

The potent 10:1 extract makes this product ultra-concentrated, which means it provides immediate benefits and maximum absorption.* It's chewable because saliva enhances the effect of Rhizinate 3X's natural compounds, and it tastes great. The proprietary German chocolate flavor was voted #1 best-tasting Rhizinate!†

Contains no yeast, wheat, gluten, corn, artificial coloring, artificial flavoring, or preservatives. This product contains natural ingredients; color variations are normal.
