

EVIDENCE-BASED

Rhizinate® is a unique extract of deglycyrrhizinated licorice (DGL) widely used in Europe. It's chewable, because saliva enhances the effect of Rhizinate's natural compounds.* In Rhizinate, the glycyrrhizin—a compound associated with high blood pressure—has been removed.*

Contains no yeast, wheat, gluten, corn, soy, dairy products, artificial coloring, artificial flavoring, preservatives, or ingredients of animal origin. This product contains natural ingredients; color variations are normal.
