

Rhizinate® is a chewable extract of deglycyrrhizinated licorice (DGL) and the amino acid glycine. It's in chewable form because saliva promotes absorption and ensures optimum value.* Studies have shown DGL stimulates and/or accelerates the natural protective factors in the digestive tract, which helps relieve stomach discomfort immediately.* In our original Rhizinate, we add fructose to sweeten this extract's distinctive flavor. However, some individuals prefer no sugar, so we offer Rhizinate without sugar or fructose.

Contains no sugar, yeast, wheat, gluten, corn, soy, dairy products, artificial coloring, artificial flavoring, preservatives, or ingredients of animal origin. This product contains natural ingredients; color variations are normal.
