

USAGE: Dissolve in mouth or chew 1 tablet per day or as directed by your qualified healthcare professional.

Methyl B-12 (methylcobalamin) supports brain and nerve health and function, energy production, cell replication, red blood cell production and sleep-wake cycles.* Methyl B-12 is also required to metabolize homocysteine back into the essential amino acid L-methionine.* Methyl B-12 is better absorbed and retained than cyanocobalamin, and supplementation may be needed by seniors, persons on stomach acid reducing regimens, and some vegetarians/vegans.*

Keep out of the reach of children.
Store in a cool, dry place.

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
